

March 12, 2020

Dear Valued Customer

At Byram Laboratories Inc safety is our number one priority. So as the Coronavirus (COVID-19) continues to have an impact on our global community. I want to share with you the steps that we have taken to keep our employees, our customers and all of our business associates safe from the spread of the Coronavirus.

Byram is encouraging all Associates to take the common sense health precautions recommended by the United States Centers for Disease Control and Prevention (CDC) as well as the World Health Organization (WHO). First and foremost, we have ramped up our cleaning efforts and instructed our employees to self-quarantine themselves if they have any signs of illness.

We are encouraging the frequent washing of hands, covering of mouth and nose if sneezing or coughing and keeping a safe distance between one another when possible. We are limiting travel only to business continuity requirements.

We have been informed by the (WHO) and our shipping carriers, UPS & Federal Express that it is safe to handle packages.

This is a very unpredictable time and the situation is evolving and changing every day. Please be assured that Byram Laboratories Inc is doing all that we can do to sustain our business operations and protect our customers and our employees.

Thank you for your continued support as we work together to limit the impact of COVID-19 on our business.

Monte J. Prince
President – CEO
Byram Laboratories, Inc
